How the Portal Works for You

All of Your Information in One Place

The Patient Health Portal is an online tool that goes a step beyond simply displaying information by helping you manage your healthcare easily and securely.

FAQs: We Have Answers

Where does my health information in the Portal come from?
All of the information in the Portal comes from War Memorial Hospital’s Electronic Health Record. This ensures that you have access to the most accurate, up-to-date information possible.

How do I log into the Portal?
To log into the Portal, visit the Patient Health Portal link on War Memorial Hospital’s website. Then, simply enter your user name and password (see enrollment information on the reverse side of this page).

Can my family access my Portal?
Yes, you can give family members, such as parents or healthcare proxies, access to your Portal. This needs to be done within your healthcare facility and requires consent from you and your designated family member(s) or proxy.

Is my information safe?
Yes. Portal passwords are encrypted and URLs are rewritten so that they cannot be copied and pasted. You and authorized family members are the only ones who can access your Portal. Also, a timeout feature protects your information if you leave the Portal page open.

What about a parent accessing their child’s health record?
This will not be possible through Portal due to state law covering the rights of minors concerning health records. They are available through our Medical Records office.

Available at Your Convenience
We understand your time is valuable. The Portal makes time-consuming tasks simple... a few clicks, and you’re done.

- Access complete health information online, versus over the phone or in person

Coming Soon To the Portal
- Request doctor appointments
- Pre-register for scheduled doctor appointments
- Request prescription renewals from doctor’s office

You Choose the When and Where
Access to the Portal is on your schedule, whether at home, on vacation, or at another medical office.

- Use the Portal from anywhere using a browser
- Access from your smartphone or tablet
- Manage information 24-7

Keep the Most Important People in the Loop
You can connect with your participating providers and keep your family informed at the same time.

- Exchange messages with your provider between visits
- Give authorized family members access to your health information
